Card Type:     

Card Number:

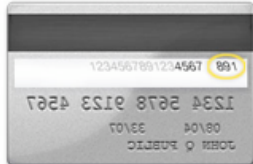

Expiration Date:   mm/yyyy Card Security Code:

### Card Security Code

The card security code is a unique three or four digit number, separate from your credit card number. Your security code can be found in the following locations on the following cards:

#### Visa/MasterCard/Discover

Your card security code for your MasterCard, Visa or Discover card is a three-digit number on the back of your credit card, immediately following your main card number.

#### American Express

The card security code is a four-digit, non-embossed (flat) number that is printed on every American Express Card.

The card security code is **always** located **above** the embossed (raised) account number on the face of the card. In some instances, the card security code is located on the left side of the card, but is always above the account number. Some cards have a four-digit number embossed below the account number, but this is not the card security code.
